V2.7
Features
Native Mindview Support (v3 on Windows)
Tweaks
'Bed Map' mode
PDF export support
Double tap the expand/collapse disclose to bring up options.
Colour/Shape inheritance on paste
Auto-scroll when dragging topics near edge of screen
Removed the need for the 'big map' concept.
New topic selection scheme - no red dot required
More improvements to the layout engine - especially when copying and pasting
Fixes
Fixed some Freemind characterset issues
